Dan Posner, Director of Business Propositions at Barclays said: *"We're delighted to have worked with 9 Spokes to create a dashboard for our customers that will give our customers a better view of how their business is performing and provide a more engaging online banking experience."*

Mark Estall, Co-Founder and CEO at 9 Spokes said: *“We look forward to seeing how our dashboard enhances Barclays’ ability to help and support their SME customers.*

Barclays is a major milestone for us. We are proud to have successfully delivered to one of the world’s leading banks at such an early stage of our business development. We expect Barclays to contribute the most customers of any of our channels over the coming year.”

Largest channel, third of four major milestones

With Barclays live, 9 Spokes has achieved three of the four major release milestones expected during the December quarter. During this quarter, 9 Spokes’ Direct channel, Propel by Deloitte and now Barclays have gone live in the UK.

The fourth major release, **Suncorp Group (Australia)** is expected to go live shortly. In aggregate, 9 Spokes’ existing channel partners have a customer base of approximately 2 million SMEs.

The UK market entry is significant for 9 Spokes. The UK has 5.5 million SMEs and is 9 Spokes’ largest market to date. Use of cloud-based software is increasing. According to market research commissioned by a UK cloud industry body, the overall cloud adoption rate in the UK stands at 84%, up from 48% in 2010.

Cash receipts increase in December quarter

9 Spokes is pleased to advise it has now received implementation payment #4 of 5 from Barclays, triggered by a previously achieved implementation milestone. This takes cash receipts for the quarter to date to NZ\$1.2m, up from NZ\$0.15m in the September quarter.

9 Spokes expects to invoice Barclays in coming days for implementation payment #5 of 5, which is the largest implementation payment and represents project completion. Importantly, with Barclays dashboard now live, 9 Spokes has also achieved the trigger for Barclays to pay recurring contracted monthly licence fees.
